Hi Kay,

Yes. We do need to move on the timeline for issuance and modifications. Let's touch base tomorrow morning and go from there.

Thanks.

Taim.

Subject: LOOP follow-up ??

Hi Taim,

I'm sure that you are having a busy day.... I just want to plan ahead for tomorrow to maximize productivity ☺.

I heard nothing more from anyone on LOOP today. (Isaac works from home on most Fridays or is "off"??)

If you still need work done on the timeline of permit issuances/modifications, please leave the LOOP hard-copies on my desk & forward me any formatting that you have developed so that I can begin 1st thing (i.e., 6:30 AM)

** I must run Windows 10 upgrade tomorrow....starting no later than noon & I will be gone @ 3 PM.

Thanks

K

Subject: RE: REALLY ROUGH compilation of past We Care sheets - Briefing Sheets & WW Flow Diagram

Hi Taim,

The materials which I handed-off to you late yesterday are the only related "records" that I have access to (i.e., **hard-copies** of past LOOP permits & misc. other info/ fact sheets, etc.) which I downloaded from LDEQ's EDMS on one of my past "unsolicited" research projects in an attempt to better understand the past permitting for LOOP (AI No. 4634, LA0049492).

Isaac,

Did you run across any “EPA records” on past EPA permits (i.e., Is there an official LOOP file in the 11th Floor File Room?and/or has the File Room transferred “old” records off-site in accordance with the official records retention schedule?)

If the goal is to “assess our exposure to NEPA and ESA,” my guess is that unless Brent, Claudia, or maybe Denise (or past LOOP EPA permit writers Maria??, Gloria Vaughn??) remember a significant effort for NEPA and ESA...then there probably was none.

Thanks

K

Thanks Kay.

All...after a conversation with Stacey, it looks like we need to develop a time line which tracks permit issuances, modifications, and describes the changes for the OCS outfalls.

Isaac, in coordination with Kay, please put together a table which includes those referenced items.

We are trying to get this together to assess our exposure to NEPA and ESA.

Thanks.

Taim.

Taim,

Something to get you started... does not contain the most current info (i.e., meeting in Dallas, phone calls/teleconferences.....etc.)

K
